

Volunteer Pet Respite Carer

- Volunteers needed for pets of the elderly
- Offer short-term respite when older people are in hospital
- Respite periods can be overnight up to 3 months

Neighbour Aid is a charity organisation assisting the frail aged and disabled within the Inner West.

We are looking for volunteers who are interested in offering a respite (foster) home for our clients` pets when they have to go to hospital or visit family for a period of time.

Many of the elderly in our community have pets or are interested in adopting a companion pet, but worry about who will be able to look after their pet when they have to go to hospital.

We are seeking willing volunteers who would be able to look after these older peoples` dear animals when they are away from home temporarily. Respite periods can be overnight or up to 3 months.

If you can help please call Roman from Neighbour Aid on (02) 9799 5099 or email roman@iwna.com.au.
